

Savor Labor Savers: Simplify Your Comeback

With some dining rooms re-opening this month, restaurants are starting to see the light at the end of the tunnel. But we know the journey ahead will be a difficult one, as many establishments will come back with reduced labor and back-of-the-house challenges.

Savor Imports is here to help you maximize flavor while minimizing labor and costs. Our Labor Savers consist of pre-prepped items, so your kitchen staff can put all its energy into the finished dish, not on extensive prep time. See our Labor Savers below and view more product details on the Dot Expressway.
